Product Announcement: PS Series Remote Power Supplies Standardization

January 2023

In a continuing effort to improve delivery performance and simplify our product portfolio, Honeywell is changing its approach to conventional power supplies. To increase production capacity and output, Honeywell is standardizing on Honeywell branded models and will be discontinuing the current Fire-Lite FL-PS Series and Honeywell Silent Knight SK-PS Series conventional power supplies.

The new Honeywell HPF-PS Series offers all of the same powerful features and capabilities as the FL-PS and SK-PS models with the only differences being the cabinet (matches Fire-Lite, not Silent Knight), the branding, the packaging and the lock and key set. Otherwise, the HPF-PS Series models are identical to the FL-PS and SK-PS models.

Orders for the current Fire-Lite and Silent Knight branded power supplies will continue to be accepted until March 31, 2023 while the new Honeywell branded models are available to order immediately.

NEW MODEL NO.	DESCRIPTION	DIRECTLY REPLACES
HPF-PS6	POWER SUPPLY; 6 AMPS, 5 OUTPUTS; 2 INPUTS	FL-PS6 & SK-PS6
HPF-PS10	POWER SUPPLY; 10 AMPS, 7 OUTPUTS; 3 INPUTS	FL-PS10 & SK-PS10

The new HPF-PS Series remote power supplies are available to order now! Please contact your preferred Honeywell Fire authorized wholesale distributor for ordering and pricing information.

Thank you for your business and continued support of Honeywell Fire products.
