

BUILDING MANAGEMENT SYSTEMS LOW VOLTAGE PRODUCTS

The **BETTER, SMARTER, FASTER** way to get your building connected

Discover our extensive line of low voltage Building Management Systems (BMS) cables. No matter the application, you get performance you can count on.

Smooth Operations, Proven Reliability

When your top priorities are a reliable build, seamless automation, and a robust connection for fire alarms, security, access and temperature control, you can't compromise on cable quality.

From office buildings and apartments to the factory floor, we offer premium cables for a full range of applications, including custom cables and small minimum runs. With the fastest lead times in the industry, we deliver what you need, when you need it.

The Lake Cable Difference

Lake Cable is a leading manufacturer of standard and custom cables, with a proven track record of providing our partners with **Better, Smarter, Faster** solutions for virtually every application.

BUILDING MANAGEMENT SYSTEMS

LOW VOLTAGE PRODUCTS

Take Control with Lake Cable Quality

Lake Cable's Building Management System cables are available in a wide range of conductor configurations, gauge sizes, and pair counts. Our plenum and riser-rated options are UL certified and meet all building codes and regulations, as well as NEC Articles 800, 725, and tri-rated NEC Article 760 for fire. We also offer unshielded or aluminum/mylar shielded cable.

For your convenience, BMS products are available on reels, in pull boxes, and reel-in-a-box, with printed footage markers and ripcords to make installation easier.

No matter the application, we have the cable to meet your specific need:
